

**Grade 4**

**Mathematics**

**Reference Sheet**

**(Pack of 10)**

M51089227110010

## MATHEMATICS REFERENCE SHEET

### Grade 4

Use the information below to answer questions on the Mathematics test.

1 foot = 12 inches

1 yard = 3 feet

1 pound = 16 ounces

1 meter = 1,000 millimeters

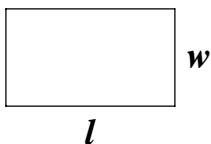

1 meter = 100 centimeters

1 kilometer = 1,000 meters

1 liter = 1,000 milliliters

1 kilogram = 1,000 grams

Rectangle

Area =  $l \times w$

Perimeter =  $l + l + w + w$

1 pint = 2 cups

1 quart = 2 pints

1 gallon = 4 quarts

## MATHEMATICS REFERENCE SHEET

### Grade 4

Use the information below to answer questions on the Mathematics test.

1 foot = 12 inches

1 yard = 3 feet

1 pound = 16 ounces

1 meter = 1,000 millimeters

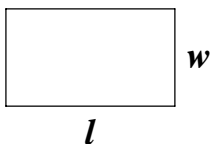

1 meter = 100 centimeters

1 kilometer = 1,000 meters

1 liter = 1,000 milliliters

1 kilogram = 1,000 grams

Rectangle

Area =  $l \times w$

Perimeter =  $l + l + w + w$

1 pint = 2 cups

1 quart = 2 pints

1 gallon = 4 quarts
