Regional Education Service Centers

RE: Participation in Biz2School Testing

Thank you for meeting with Dawn Saucier of the Office of Career and Technical Education (CTE) Business Unit last week to discuss the possibility of some of your high schools assisting us with the 90-day test period of our new website, Biz2School. As Dawn outlined during your meeting, this website is designed to be an easy communication tool for schools and businesses, with the goal of connecting schools to businesses in order to access their mentoring, job-shadowing, and internship offerings. We are looking forward to working with some of your schools as we test the website.

The Regional Education Service Centers (RESCs) and CTE are working jointly on this project, and are ready to assist you with signing up your schools and answering any questions you might have.

Again, thank you for assisting us with this project.
